SUPPOSE you are today paying 50c a tube for your tooth paste (and there are many very good dentifrices selling today at that price). frices selling today at that price).

Suppose, like most people, you buy about twelve rubes during a year. Now if you knew that you could buy as good a dentifrice as can be made and still save each year the price of 25 loaves of bread or 60 bars of soap or 40 pounds of sugar or a box of fine cigars—could you conscientiously fail to take advantage of such an opportunity?

That is exactly what you do when you buy Listerine Tooth Paste at 25c for a large tube. Figure it out for yourself.
